

MODEL		Hi Fan Tower
Heating power (min/max)	(W)	1300/2500
Suitable volume	(m ³)	80
Power supply	(V/F/Hz)	230/1/50
Power input (low/high)	(W)	1300/2500
Dimensions (H./W./D.)	(mm)	788/263/263
Net weight	(Kg)	4,7
Horizontal Swinging		Auto 90°
Digital display with LED symbols		soft touch
Auto-switch-off Timer	(h)	0-7,5
Remote control		yes
PTC protection		yes
Double electric insulation		yes
Device against overturning		yes

FEATURES

- Hi-tech design ceramic fan heater
- Quick heating thanks to the ceramic resistance
- High heating power: min. 1300 W - max. 2500 W
- Extremely silent, thanks to the special tangential fan
- "Soft touch" digital control panel
- Wide digital display with white LED symbols
- Ultra-thin design
- 90° Automatic oscillation, to make the gentle wind reaching a wide area
- Auto-switch-off Timer from 0 to 7,5 hours
- Multifunction remote control usable from 6 m distance
- Dismountable air filter on the rear, easy for cleaning
- Double electronic protection against overheating
- Safety device against overturning
